### **Note of support from Zhejiang University**

Dear Professor Mamokgethi Phakeng,

I hope this letter finds you well.

On behalf of our entire university community, I'm writing to express our deep concern and solidarity to all UCT members who have felt the impact of the recent campus fire. Meanwhile, your timely and effective response for ensuring the safety of the UCT community is highly appreciated.

As we try to future-proof our society in the face of unpredictable threats, I believe university partnerships will have an increasingly crucial role to play. I look forward to seeing you virtually in the coming months to renew our institutional partnership and explore further collaborations, in particular around the SDGs.

Please feel free to let us know if ZJU could be of any assistance to you.

With personal best regards,

A handwritten signature in cursive script, reading "Zhaohui WU".
